

SENTIMENTAL JOURNEY

Take a photo and create a photo book

Do you have a piece of furniture or decor in your home that doesn't fit into your decor or isn't your style? You can't use it but you keep it because it belonged to your loved one and it was their favorite cherished possession? Take a photo of it. In fact, create a photo book filled with pictures of sentimental pieces with a description of the stories behind these items. The memory of the object is preserved while decluttering your space.
