Our Services

Lifestyle by Design has the ability to look at a chaotic space and see the calm. Not everyone can do that. The tasks can be discouraging and frustrating. We can help!

Home Organization

Just thinking about clutter can terrify people. They worry they will never get control of all their clutter. Often they just don't know how to get started or find it difficult to make decisions. Whether it's designing organizational systems, or simply streamlining and using what you already have to create a space that reflects that lifestyle you've dreamed of - we can help!

Interior Redesign

Interior redesign, is a method where we can update rooms that seem old or outdated to more stylish in small ways and large, whatever suits your budget or time.

Whether it's simply rearranging and repurposing furniture or introducing new accessories, new colors, and painting, we can help! We can help you improve the traffic flow and functionality of rooms and give areas a fresh look. Using creative and often inexpensive new accessories, we will rearrange your furniture, art, and treasures in surprising ways. Most of the time we use what you already have in the home.

Home Staging

Ready to sell and want to showcase your home to look its very best! We can help with unique organization & cleaning techniques, simply packing up infrequently used items and furniture rearrangement or making minor repairs and painting. We can make your home look its best for potential buyers.

Estate Clean-Outs

Are you facing the stressful and sentimental task of clearing out a loved one's estate? Whether it's purging through belongings, selling items, donating home furnishing, staging the home, or cleaning out and hauling away - we can make this emotional process go smoothly.

Walk & Talk

Do you need help with organizing, redesigning, moving, or planning? If you're simply looking for some advice and want to do the work yourself - we can help. We created a Walk & Talk checklist that you'll have on hand to make notes, and sketches to get you started on your DIY journey.
